

## Citrix Password Manager 4.5: Administration

**Duration: 2 Days**    **Course Code: CTX1327AI**

---

### Overview:

This course introduces administrators and IT professionals to Citrix Password Manager 4.5 and prepares them to install, administer and support the product. Interactive instructor-led discussion and hands-on labs and exercises guide learners through administrator tasks preparing them to manage Citrix Password Manager 4.5 deployments.

---

### Target Audience:

This course is intended for system administrators familiar with networking components, security elements, Microsoft Windows Server 2003 and Presentation Server environments

---

### Objectives:

- Upon completion of this course, learners are able to:
    - • Install Citrix Password Manager 4.5
    - • Create application definitions in the Console
    - • Configure password management
    - • Configure settings for agent software deployment
    - • Identify advanced configurations such as Hot Desktop and Account Self-Service
- 

### Prerequisites:

Before taking this course, Citrix recommends that learners complete:

- CTX-1455BW Citrix Common Management Platform 4.5: Administration
- CTX-1325AW Citrix Password Manager 4.0: Architectural Overview

### Testing and Certification:

This course is part of a series of recommended training that prepares candidates for exam 327 Citrix Password Manager 4.5: Administration which is required for certification as a Citrix Certified Administrator (CCA) for Citrix Password Manager 4.5.

---
